Journey: Cinema to Bar

The most direct route to the **Bar** is through the **Cinema Foyer**. There is a wheelchair lift or **6 steps** with a handrail.

To operate the wheelchair lift, there are controls at the top of the stairs, on the lift and in the **Cinema Foyer** at the bottom of the lift.

The door needs to be closed for the lift to move.

The **Bar** has a low counter top for customers in wheelchairs to be able to order at the counter and see the contents of the fridges without restriction.
